Claims 1 and 3-6 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 1 and 3-4 are allowed over the prior art of record. The prior art of record considered individually or in combination, fails to fairly teach or suggest the claimed circuit comprising, among other limitations and unobvious limitations of **“an inductance for blocking flow of current from the high frequency coupling through the biasing circuit”** structurally and functionally interconnected with other limitations in the manner as cited in the claims.

Claim 5 is allowed over the prior art of record. The prior art of record considered individually or in combination, fails to fairly teach or suggest the claimed circuit comprising, among other limitations and unobvious limitations of **“providing the bias circuit with a high frequency current blocking circuit including an inductance”** structurally and functionally interconnected with other limitations in the manner as cited in the claims.

Claim 6 is allowed over the prior art of record. The prior art of record considered individually or in combination, fails to fairly teach or suggest the claimed circuit comprising, among other limitations and unobvious limitations of **“wherein feedback impedance element is coupled between an output of at least one of the first and the second current branch”** structurally and functionally interconnected with other limitations in the manner as cited in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
